The Mater Misericordiae Hospital, a leading Health Care provider is seeking to fill the following position:

MOLECULAR BIOLOGY TECHNOLOGIST.

POSTION SUMMARY: Perform complex technical work involving molecular analysis of human biological materials. Job duties include a combination of the following responsibilities: extensive and complex steps requiring manual manipulation and pipetting, close monitoring and control, evaluation of data, and careful and accurate work.

DUTIES AND RESPONSIBILITES:

- Evaluate specimens received by the department and organize workflow to provide optimum efficiency of testing and turnaround time of results
- Extract, denature and purify DNA from assorted specimen types
- Perform PCR, hybridization, and genetic sequencing methods
- Evaluate results to determine interference, inhibition, or other problems that arise during extraction, amplification, or sequencing of DNA
- Perform quality control, validation, and other quality activities to verify performance of clinical assays
- Maintain equipment by performing assigned maintenance activities and troubleshoot unexpected problems with equipment
- Record data to monitor temperatures of incubation equipment
- Evaluate inventory of supplies and reagents and communicate order needs
- Operate complex equipment and computer programs related to equipment and LIS system
- Maintain records of test results and archives of data
- Perform proficiency testing to maintain compliance with regulatory agencies

EDUCATION: BS degree in Medical Laboratory Technology or Molecular Biology Science

LICENCE: Must be registered with KMLTTB and have a valid practicing license.

EXPERIENCE Minimum three years' working experience in molecular laboratory

If you are interested in the above position and you meet the requirements listed, please send your application together with a detailed CV, **three [3] referees and include their telephone contacts and email address** to hrrecruit@materkenya.com so as to reach us not later than **14th August 2020.**

Due to the urgency of this role, Cvs will be reviewed on a rolling basis.

Only short listed candidates will be contacted.
